Annual Statistical Report 1998-99

Saskatchewan Health

Medical Services and Health Registration Branch

- . Medical Services Plan**
- . Health Registration**

Preface

This document is a statistical supplement to the Annual Report of Saskatchewan Health for the fiscal year 1998-99. It contains statistical data concerning the programs administered by the Medical Services and Health Registration Branch, including the Medical Services Plan and Health Registration.

Comments or questions concerning the material in this document may be addressed to:

30	General Practitioners in Relation to Population, Earnings and Practice Size.....	51

Highlights

- Payments by MSP under its program areas totalled \$343.1 million (see Page 6). Administration added a further \$4.9 million in expenditures (1.4% of program costs).
- MSP also made payments in 1998-99 to support the Saskatchewan Medical Association's Continuing Medical Education Fund, Rural and Remote Incentives, Emergency On-Call Program and to a dental residency program.

Medical Services Plan

- A \$5.5 million agreement was reached with the Saskatchewan Medical Association in January 1998 to provide payment to physicians for emergency coverage through the Emergency On-Call Program. The intention was to recognize the time commitment of physicians who are providing continuous, 24 hour emergency room coverage in acute care facilities or health centres in communities outside the major tertiary centres. The significant infusion of funds into this program is responsible for the increase in payments for the type of service category Special and Miscellaneous Services (Table 8).
- The number of claims received for processing in 1998-99 totalled over 8.3 million, including claims for cancer services and out-of-province beneficiaries. About 96% of claims were submitted via computer (Table 3).
- The number of beneficiaries eligible to receive services increased by about 11,600 to 1,031,933. Of this number, 85.3% received insured services during the year from a physician, 9.2% from an optometrist, and 10.0% from a chiropractor (Table 5).
- Benefits paid for insured services - provided by physicians, optometrists, chiropractors, and dentists - amounted to \$285.1 million, an increase of 4.92% on a per capita basis (Table 8).

• Total program expenditures by area were: (Table 8)		
physicians	\$272,125,000	
optometrists	\$3,645,000	
chiropractors	\$8,045,000	
dentists	\$1,278,000	

- Payments for out-of-province physician services increased to \$11.4 million (Table 11) up 2.40%. Out-of-province hospital payments totalled \$26 million.
- The overall number of active physicians in Saskatchewan increased at year end to 1,158 from 1,131 in 1997-98. Metro (Regina and Saskatoon) general practitioners increased by 8 (to 343), other urban general practitioners increased by 4 (to 148), and rural general practitioners increased by 16 (to 216); specialists decreased by 1 (to 451).
- Active chiropractors decreased by 7 (to 93) while active optometrists increased by 3 to 29. These numbers remain low due to program changes in 1992 which influenced practitioners' ability to bill the plan, and do not represent the number of chiropractors and optometrists practising in the province (see Table 19).
- Average payments to active practitioners (Table 25):

General Practitioners	\$184,500	up 4.53%
Specialists	270,200	up 4.40%
All Physicians	217,900	up 3.77%
Optometrists	56,400	up 7.43%
Chiropractors	68,200	down 1.59%

(Note that the infusion of funds into the Emergency On-Call Program may not provide accurate year over year comparison for General Practitioners, particularly outside the metro areas of Regina and Saskatoon.)

- The fiscal year 1996-97 included an extra pay run in which two additional weeks of claims had actually been processed in comparison to any previous and following years depicted in this report. These two additional weeks of processed claims may not provide accurate year over year comparisons.

- The number of projects and districts involved in alternate payment arrangements managed through MSP has increased each year since 1993-94. Payments in 1998-99 were \$8.7 million, up 32% compared to 1997-98. The portfolio of contracts is diverse and includes both General Practitioners and specialists such as Intensivists, Obstetricians and General Surgeons. In 1998-99 45% of the active contracts were for general practitioner services and 55% for specialist services. Other groups of physicians who derive the majority of their income from mechanisms other than fee-for-service are physicians funded through district budgets, Community Clinic physicians and the College of Medicine. When combined, total expenditures for all of these physicians in 1998-99 was approximately \$84.8 million and comprised over 15% of physicians in the province.
- Other alternate payment key initiatives include:
 - support for educational activities at the College of Medicine by the Department through the Clinical Services Fund with expenditures of \$18.4 million in 1998-99. Staff assisted in facilitating a comprehensive review of the College of Medicine (completed in 1998) and are active in the ongoing work to develop effective strategies necessary to sustain a strong and viable College in the province.
 - the licensing of approximately 400 laboratories under the Medical Laboratory Licensing Act. The Laboratory Licensing Program ensures that laboratory testing conducted throughout the province meets established standards.

Health Registration

- Through the health registration process, a central registry of all Saskatchewan residents eligible for provincial health benefits is maintained. A provincial health services card with a unique health services number is issued to ensure that only eligible Saskatchewan residents receive insured health benefits.
- Health Registration information (population as at June 30, 1997 and June 30, 1998):

	<u>1997-98</u>	<u>1998-99</u>
Covered population	1,020,351	1,031,933
New family registrations	18,433	14,518
Family address changes	112,628	105,012
All beneficiary changes	331,059	403,124
Health services cards issued	124,009	107,612
Telephone calls processed	159,395	145,773
Clients served at the counter	not available	15,344

Medical Services and Health Registration Branch 1998-99 Expenditures

Medical Services Plan	
In-Province	\$280,809,000
Physicians - Fee-for-service	\$259,736,000
Physicians - Alternate Payments	10,372,000
Chiropractors	6,464,000
Optometrists	2,954,000
Dentists	1,284,000
Out-of-Province (including Hospital)	40,967,000
Rural Incentives/Continuing Medical Education	2,842,000
Medical Education System - Clinical Services Fund	18,369,000
Dental Residency Grant	71,000
Administration	4,913,000
Total Expenditures	\$347,971,000

Notes:

1. There is a difference between Medical Services Plan payments shown above and the total payments shown in the statistical tables. The difference is due to accounting adjustments (e.g. accrual accounting; the handling of payments to and from other provinces for claims processed under the reciprocal billing arrangement); certain recoveries; adjustments for retroactive payments; the handling of claims for medical and optometric services provided in community clinics, which are included in the statistical tables as if paid on a fee-for-service basis, but actually funded on a global basis through District Management Services Branch; and, the handling of claims for medical services provided in other alternate payment projects. For statistical purposes, combined chiropractic and optometric data for services paid under both the Medical Services Plan and the Supplementary Health Program is reported in this document.
2. Medical Services Plan Out-of-Province payments include physician, chiropractic, optometric, dental and hospital services.

Medical Services Plan

The Medical Services Plan provides insurance coverage to Saskatchewan residents for a wide range of services provided by physicians, chiropractors, and optometrists, as well as a limited range of services provided by dentists.

All residents of Saskatchewan, with a few exceptions (members of the Canadian Armed Forces, RCMP, inmates of Federal Penitentiaries) are eligible to receive benefits, with the sole requirement being Plan registration. No premiums are levied.

Subject to the exclusions detailed later in this section, the following services are insured:

Physician Services

Medical Services - The diagnosis and treatment by a physician of all medical disabilities and conditions.

Surgical Services - Surgical procedures by a physician including diagnosis, pre- and post-operative care and the services of physician surgical assistants when required.

Maternity Services - Care during pregnancy and delivery, and after care of the mother and child by a physician.

Anaesthesia - The administration of anaesthesia by a physician including:

- anaesthesia for diagnostic, surgical and other procedures
- obstetrical anaesthesia
- anaesthesia for pain management
- all dental anaesthesia for patients under 14 years.

Diagnostic Services - In Hospital

- diagnostic services other than x-ray or laboratory services and the technical portion of services involving a tracing.

Diagnostic Services - Out of Hospital

- x-ray services, including interpretations, provided by a specialist in radiology. Coverage under the Medical Services Plan for breast screening mammographies for women 50 to 69 years of age was discontinued effective August 1, 1993. Full coverage is available through the provincial Screening Program for Breast Cancer.
- an approved list of laboratory services provided by a physician other than a pathologist.
- other diagnostic services provided by a physician.

Preventive Medical Services - Immunization services where not available through any government or municipal agency; examination and report for adoptions for both child and parents; examination and report for persons becoming foster parents; a routine physical examination by a physician but not including an examination for the purpose of insurance, employment, vehicle seatbelt exemptions or at the request of a third party.

Cancer Services - Services for the diagnosis and treatment of cancer, except when provided by physicians under contract with a Saskatchewan Cancer Clinic, are now insured services with the Medical Services and Health Registration Branch as of July 1997. Prior to July 1997, the Branch acted as a paying agent for the Cancer Foundation.

Optometric Services

Effective June 1, 1992 coverage for optometric services became limited to the following four categories of persons:

- those under the age of 18;
- Supplementary Health Program beneficiaries;
- recipients of Family Health Benefits Program;
- seniors (age 65+) receiving a Saskatchewan Income Plan supplement.

The services covered include routine eye examinations, partial examinations and tonometry (for persons 40 years of age and over).

The frequency of routine examinations to determine refractive error is limited to one in any 24 month period for beneficiaries aged 18 to 64. Beneficiaries of all other ages are eligible for a routine eye examination once every 12 months.

Dental Services

Services in connection with maxillo-facial surgery required to treat a condition caused by an accident.

Certain services in connection with abnormalities of the mouth and surrounding structures.

Services for the orthodontic care of cleft palate upon referral to a dentist by a physician or another dentist.

Certain x-ray services when provided by a dentist who is a specialist in oral radiology.

Extraction of teeth medically required for the provision of:

- heart surgery,
- services for chronic renal disease, or
- services for total joint replacement by prosthesis

where the beneficiary was referred to a dentist by a specialist in the surgical field and where prior approval of the MSP is received.

Chiropractic Services

Chiropractic visit and x-ray services with no limits. Effective September 8, 1992 the chiropractic program changed to a co-payment system for visit services. The system continues to provide for a government payment to be made to chiropractors for each visit service provided.

Chiropractors are also allowed to charge beneficiaries an additional amount beyond the amount of government payment. Supplementary Health Program beneficiaries, recipients of Family Health Benefits Program, and seniors (age 65+) receiving a Saskatchewan Income Plan supplement remain fully insured for chiropractic services.

Out-of-Province Services

Most services insured in Saskatchewan are insured outside the province, but within Canada.

Services provided by physicians in other provinces except Quebec are covered by a reciprocal billing arrangement. Saskatchewan beneficiaries are not normally billed for insured physician services provided in other provinces except for certain services excluded from the reciprocal billing arrangement. In most cases, physicians bill the provincial health plan of the provinces in which the services are provided. The host plan then bills the home province of the patient for the services provided.

Cataract surgery and magnetic resonance imaging (MRI) provided outside of the province are only insured with prior approval from Saskatchewan Health.

Non-emergency services provided outside of Canada are only insured with prior approval from Saskatchewan Health.

Hospital services provided to Saskatchewan beneficiaries in other provinces are covered by a reciprocal billing agreement. The hospital bills the provincial health plan of the province in which services are provided. The host plan then bills the home province of the patient for the services provided.

Emergency hospital services provided outside of Canada are covered on the following basis: \$100 (Canadian) per day for in-patient services; \$50 (Canadian) for an out-patient visit. Non-emergency hospital services provided outside Canada are covered only if prior approval has been obtained from Saskatchewan Health.

Similar prior approval provisions exist for coverage of hospital services provided outside the province in respect of cataract surgery and MRI's, as noted above for physicians.

Exclusions

The following services are not insured:

- health services received under other public programs including: The Saskatchewan Hospitalization Act, The Workers' Compensation Act, federal Department of Veteran Affairs, The Mental Health Act.
- Laboratory services, including interpretations, provided by a specialist in pathology. Effective October 1, 1993 responsibility for the delivery of these laboratory services was transferred to District Health Boards.
- travelling
- advice by telephone except when provided to a district home care worker
- surgery for cosmetic purposes
- any mental or physical examination for the purpose of employment, insurance, judicial proceedings, vehicle seatbelt exemptions or at the request of a third party
- autopsy
- ambulance services and other forms of transportation of patients
- services provided by special duty nurses
- services provided by chiropodists, podiatrists, naturopaths or osteopaths
- dentistry, except as described under Insured Services
 - Dental Services
- drugs and dressings
- appliances (e.g. eyeglasses, artificial limbs)
- routine eye examinations by physicians are limited in coverage to those beneficiaries who would be covered under the optometric program
- effective January 1, 1993 the following specific services were de-insured under the Medical Care Insurance Act:
 - electrolysis
 - dental anaesthesia provided in conjunction with an insured service where the patient is 14 years or over
 - reversals of sterilization
 - implantation of penile prosthesis

- effective August 1, 1993 the following services were totally or partially de-insured under the Medical Care Insurance Act:
 - thermal ablation of obviously benign skin lesions
 - injection of asymptomatic varicose veins
- effective August 1, 1996 non-medically necessary circumcisions for newborns were de-insured.

Methods of Payment

The Medical Services Plan makes payment for insured services by the following methods:

- fee-for-service billing by practitioners based on negotiated fee schedules
- population-based funding, adjusted by age, gender and geographic area, for general practitioner services provided to clients who primarily seek their health care from a single physician clinic
- salary, contractual or sessional payment arrangements funded through District Health Boards.

A global system of payment for the operation of four community clinics is provided by District Management Services Branch.

Practitioners may choose to practise entirely outside the Medical Services Plan, in which case the services provided by that practitioner are uninsured.

Professional Review

Joint Professional Review Committees have been formed with the various professional associations and licensing bodies to evaluate the billing and practice patterns of practitioners. These Committees are empowered to make monetary reassessments and levy fines of up to \$50,000.

Alternate Payments and Resource Planning Unit

The **Alternate Payments and Resource Planning Unit** was established in 1992 as a result of growing interest in exploring alternative forms of remuneration for physician services. Since that time, a number of other areas such as the Clinical Services Fund (College of Medicine, University of Saskatchewan), the Emergency Room Coverage and provincial laboratory licensing have been included in the activities of the Unit.

Alternate methods of compensating physicians for services are designed to:

- provide physicians with the flexibility to develop programs and deliver services that meet the needs of their patients, including initiatives such as health promotion and other educational activities
- encourage physicians to work as members of multi-disciplinary health teams without experiencing loss of income.

Funding levels for alternate payment projects are determined based on a number of factors including the population served, service need, and ongoing viability and sustainability of the service.

Alternate payment arrangements for general practitioner services are closely linked with the Department's Primary Health Services initiative. Physicians and districts considering alternate payment arrangements are encouraged to explore the opportunities and benefits of this approach in the delivery of health services.

Statistical Figures and Tables

Introductory Notes

General - The following tables are based upon Medical Services Plan payments made during 1998-99 for medical, optometric, chiropractic and dental services provided to Plan beneficiaries as outlined in Table 4.

A global system of payment for medical and optometric services is used for four community clinics in the province, however, services are recorded on the same basis as fee-for-service items. Most alternate payment projects have their services recorded on the same basis as fee-for-service items.

The statistical tables include data on treatment services for sexually transmitted diseases for 1998-99. However, this STD data is excluded in previous years when MSP acted as paying agent for the Provincial Laboratory Branch.

Most tables include data, where noted, on services provided to Saskatchewan residents by practitioners outside the province. Table 12 is the only table which includes payments to Saskatchewan physicians for services provided to beneficiaries of other provinces or territories. Tables 13 and 14 are the only tables which show data related to out-of-province hospital services.

Service groupings are based on national (Canadian Institute for Health Information) grouping classifications.

Beneficiaries - Beneficiary information, such as the age-sex structure, is based upon records maintained by the Health Registration Branch.

Date of Payment - Statistics are based upon the date a service was paid, as opposed to the date the service was provided. Statistics for the fiscal year 1998-99 include some services rendered in 1997-98.

Payment Adjustments - The difference between Medical Services Plan payments shown in the Statement of Expenditures, page 6, and the total payments shown in the statistical tables is due to accounting adjustments (e.g. accrual accounting; the handling of payments to and from other provinces for claims processed under the reciprocal billing arrangement); certain recoveries; adjustments for retroactive payments; the handling of medical and optometric services provided in community clinics and funded on a global basis through District Management Services Branch; and, the handling of claims for medical services provided in alternate payment projects. Statistical tables have not been adjusted for recoveries resulting from professional review activities (see Table 2).

Payments to Locum Tenens - Where a physician acts as the principal for a locum tenens physician who is not fully registered by the College of Physicians and Surgeons, payments for services provided by the locum are made to the principal, unless the locum is granted a conditional or provisional licence by the College. This can impact on average physician payment data.

Retroactive Payments - From time to time, the MSP is required to make payments retroactively to practitioners, pursuant to agreements with the respective professional associations. The data excludes the lump sum payments made to the Saskatchewan Medical Association (SMA) in March 1998 in lieu of a retroactive amendment to the Payment Schedule for 1997-98 and in October of 1998 in lieu of delayed implementation of amendments to the Payment Schedule for 1998-99.

Chiropractic and Optometric Services under Supplementary Health - Changes to the chiropractic and optometric programs in 1992 resulted in a shift in payment responsibility for some services to the Supplementary Health Program. For statistical purposes, however, combined chiropractic and optometric data for services paid under both the Medical Services Plan and the Supplementary Health Program is reported in this document.

Definitions of Service Groupings (Tables 7 to 10 and 15)

- (a) **Consultations** - A consultation is the referral of a patient by one physician to another for examination, diagnosis, and written report. The patient may return to the referring physician for treatment or receive treatment from the consultant.
- (b) **Major Assessments** - A major assessment comprises a full history review, an examination of all parts or systems, a complete record and advice to the patient, and may include a detailed examination of one or more parts or systems. A major assessment may be provided to new or former patients. Eye examinations by physicians are included here.
- (c) **Other Assessments** - Other assessments are visits which comprise history review, history of the presenting complaint, and an examination of the affected parts, regions or systems. Follow-up assessments, well baby care provided in the office, visits to special care homes and continuous personal attendance are included in this classification.
- (d) **Psychotherapy** - Includes treatment interview, group therapy, and counselling.

- (e) **Hospital Care** - Physician services provided in a hospital on a visit per day basis including newborn care in hospital. Hospital visits covered by a composite payment such as hospital care following surgery are not included.
- (f) **Special Calls and Emergency** - Includes surcharge payments made in association with visits or other services provided by physicians when specially called to attend a patient on a priority basis; follow-up house calls not specially called; special calls for additional patients seen; and out-of-hours premiums.
- (g) **Major Surgery** - All 42-day surgical procedures excluding those falling in the Obstetrics classification. The "day" classification refers to the number of days of post-operative care included in the procedural fee.
- (h) **Minor Surgery** - All 0 and 10-day surgical procedures excluding those falling in the Obstetrics classification.
- (i) **Surgical Assistance** - Services of physicians as required to assist the surgeon at an operation. Includes assistant standby.
- (j) **Obstetrics** - Includes confinements, abortions, caesarian sections, but excludes gynaecological surgery, and pre- and post-natal visits. Foetal monitoring and transfusions are included here.
- (k) **Anaesthesia** - All anaesthetic procedures, pain management and pain clinic services are included in this category (see page 7).
- (l) **Diagnostic Radiology** - All out-of-hospital technical procedures and interpretations by specialists in radiology.
- (m) **Laboratory Services** - Common office laboratory services provided by a physician other than a pathologist.
- (n) **Other Diagnostic and Therapeutic Procedures** - All types of diagnostic procedures, allergy tests, ultrasound, professional interpretations of procedures, biopsies, therapeutic procedures, injections, Papanicolaou smears, and resuscitation and intensive care.
- (o) **Special and Miscellaneous Services** - Examinations for adoptions, for rape victims, for follow-up Cancer report; examinations and certifications of mental ill health; immunizations where not elsewhere available; intralesional injections; emergency on-call coverage, and any other services not elsewhere classified.
- (p) **Services by Optometrists** - Includes eye examinations to determine the refractive state of the eye, when provided by an optometrist, partial examinations and tonometry testing.
- (q) **Services by Chiropractors** - Includes visit services and x-ray services provided by chiropractors.

- (r) **Dental Services** - Includes certain insured services provided by dentists, i.e. oral surgery, or orthodontic services for care of cleft palate, and the extraction of teeth necessary to be performed before the provision of certain surgical procedures.

Categories of Practitioners (Tables 15 and 18 to 26)

I. Physicians

- (a) **General Practitioner** - A physician registered with the College of Physicians and Surgeons of Saskatchewan whose name does not appear on the specialist listing mentioned in (b) below. Includes physicians who while not specialists, limit their practice to specific specialty areas.
 - (i) **Metro** - A general practitioner who practises in Regina or Saskatoon.
 - (ii) **Urban** - A general practitioner who practises in a locality having 10,000 or more residents other than in Regina or Saskatoon.
 - (iii) **Rural** - A general practitioner who practises in a locality having fewer than 10,000 residents.
 - (iv) **Association** - A general practitioner who maintains patients' medical records with one or more other physicians.
 - (v) **Solo** - A general practitioner who is not working in association with another physician.
- (b) **Specialist** - A physician listed by the College of Physicians and Surgeons of Saskatchewan as eligible to receive MSP payments at specialist rates. If a physician is listed as a specialist during the year, only those services provided after such listing are included with specialist services.
Note: Psychiatrists are included with Internists, Medical Geneticists with Paediatricians, and Pathologists with Diagnostic Radiologists.

- II. **Optometrist** - A practitioner registered by the Saskatchewan Association of Optometrists.

- III. **Chiropractor** - A practitioner registered by the Chiropractors' Association of Saskatchewan.

Note: Definition of Active Practitioner - Practitioners receiving \$40,000 or more in MSP payments during the year and practising in Saskatchewan under MSP coverage at the end of the year. General Practitioners are categorized in the group in which they earned the most income if they practised in various clinics or locations throughout the year.

Table 1
Analysis of Per Cent Change in Per Capita Costs

Year	Gross Payments for Insured Services (000's)	Total Per Cent Change In Per Capita Costs*	Per Cent Change Due to Fee Increases	Per Cent Change Due to Utilization Increases
1994-95.....	259,784	0.47	0.00	0.41
1995-96.....	256,769	-1.79	0.00	-1.84
1996-97**.....	269,101	4.13	1.54	2.54
1997-98.....	268,673	0.21	1.18	-0.96
1998-99.....	285,093	2.99	2.79	0.19
Average Annual Per Cent Change 1994-95 to 1998-99.....	2.40	1.39	1.38	-0.02

- * Current year cost per capita figures have been adjusted for claims inventory, program coverage and covered population to allow for comparison to the previous year.

The total per cent change in per capita costs is equal to the per cent change due to fee increases times the per cent change due to utilization increases.

Adjustments were made to gross payments in 1993-94 and 1994-95 to compensate for the delay in processing Alberta reciprocal billing tapes.

Payments in 1995-96 exclude the lump sum payment made to the SMA for distribution to physicians in the province in lieu of a retroactive amendment to the Payment Schedule for 1995-96.

Payments in 1997-98 exclude the lump sum payment made to the SMA for distribution to physicians in the province in lieu of a retroactive amendment to the Payment Schedule for 1997-98.

Payments in 1998-99 exclude the lump sum payment made to the SMA for distribution to physicians due to delayed implementation of amendments to the Payment Schedule for 1998-99.

Payments in 1997-98 and 1998-99 exclude emergency on-call coverage payments.

- ** Payments in 1996-97 include an extra pay run. The two additional weeks of processed claims may not provide accurate year over year comparison.

Table 2
Adjustments and Recoveries by the Medical Services Plan

	1997-98		1998-99	
	Number of Practitioners	Adjustment or Recovery (000's)	Number of Practitioners	Adjustment or Recovery (000's)
Routine Assessment on In-Province Claims*	1,762	\$10,118.4	1,784	\$8,283.6
Routine Assessment on Out-of-Province Claims*	--	1,174.1	--	976.3
Special MSP Studies and Professional Review Activity**.....	23	552.7	21	407.4
Third Party Liability Recoveries.....	--	1,659.9	--	1,667.0
Total.....	--	\$13,505.1	--	\$11,334.3

- * The dollar adjustments represent the difference between the amount on claims submitted and the amount assessed, including adjustments resulting from verification programs.

- ** The dollar amounts are recoveries resulting from the correction of payments as revealed by special studies by the MSP and Professional Review Committees.

Table 3
Claims Received by Method of Billing

Claims Received from:	Number of Claims Received		Per Cent of Claims Received	
	1997-98	1998-99	1997-98	1998-99
Physicians.....	7,478,326	7,550,392	89.71	90.11

Notes: 1) More than one of the same high cost procedure can occur during a single hospitalization.

2) Payments for high cost procedures, except MRIs, performed during inpatient hospitalizations can include the authorized per diem rate of the hospital.

3) Although all Cochlear Implants are performed in Alberta, payment for the device itself is made to the United States.

4) Data for hospitalizations in Flin Flon and Benito (Manitoba) are not included.

* Ninth Revision International Classification of Diseases, 1977.

[^] MSP internally assigned code for the identification of a specific condition which is grouped within a general category in the I.C.D.

[†] Rate per 1,000 female beneficiaries.

Note: MSP records only one diagnosis of symptoms per claim even though the patient may have more than one condition.

* Physicians are shown in specialties or general practice in accordance with the listing of the College of Physicians and Surgeons of Saskatchewan at the end of the year.

^A The size of practice is the number of different persons on whose behalf a claim was paid during the year.

~ A patient contact represents each time a practitioner saw a patient professionally regardless of the number of services provided at the time. The limit is one contact per patient, same doctor, same date of service. X-ray, ultrasound and laboratory services, and any professional interpretations of procedures are not considered to be patient contacts.

¹ Practitioners receiving \$40,000 or more in MSP payments during the year and practising in Saskatchewan under MSP coverage at the end of the year.

² Registered Practitioners:

Resident Saskatchewan Physicians, Optometrists and Chiropractors as shown by the Medical Services Plan.

* Represents gross payments by the Medical Services Plan from which the practitioners must pay overhead costs which may be high in specialties such as Radiology and Pathology. The MSP payments should not be taken to represent total professional income since the practitioners may receive payments from other sources, e.g. from other public or private agencies, from patients requesting services not covered by MSP. Average payments to general practitioners reflect an upward bias as a result of physicians sponsoring locums.

^ Includes Physicians, Optometrists and Chiropractors resident in Saskatchewan at the end of the year.

* Physicians are shown in specialties or general practice in accordance with the listing of the College of Physicians and Surgeons of Saskatchewan at the end of the year.

Practitioners receiving \$40,000 or more in MSP payments during the year and practising in Saskatchewan under MSP coverage at the end of the year.

^a Represents gross payments by the MSP from which the practitioner must pay overhead costs which may be high in specialties such as Radiology and Pathology. The MSP payment should not be taken to represent total professional income since practitioners may receive payment from other sources, e.g. from other public or private agencies, from patients requesting services not covered by MSP. Average payments to general practitioners may reflect an upward bias as a result of physicians sponsoring locums.

Notes: 1) The two additional weeks of processed claims in 1996-97 may not provide accurate year over year comparison.

2) Pathology services are now the responsibility of District Health Boards. As a result, there is very little that is now paid for on a fee-for-service basis.

* Physicians are grouped as follows:

- . Medical Specialists include Paediatricians, Internists, Neurologists, Cardiologists, Psychiatrists, Dermatologists, Physiatrists, and Medical Geneticists.
- . Surgical Specialists include General Surgeons, Thoracic Surgeons, Orthopaedic Surgeons, Plastic and Reconstructive Surgeons, Neurological Surgeons, Obstetricians and Gynaecologists, Urological Surgeons, Ophthalmologists and Otolaryngologists.
- . Technical Specialists include Anaesthetists, Pathologists and Diagnostic Radiologists.

^ Physicians receiving \$40,000 or more in MSP payments during the year and practising in Saskatchewan at the end of the year.

- Includes physicians who practise out of teaching institutions. Average payments may reflect a downward bias as a result.

* Person-year equivalents are prorated on the number of months in practice.

-- Not shown, to preserve confidentiality.

All Districts	907	707	1,460	\$184,528	2,670	7,124

* Resident physicians shown as being in practice on the Medical Services Plan Practitioner Register on the last day of the year. Physicians may be counted in more than one district but the provincial total is a discrete count.

† Practitioners receiving \$40,000 or more in MSP payments during the year and practising in Saskatchewan under MSP coverage at the end of the year.

‡ Average payments may reflect an upward bias as a result of physicians sponsoring locums.

^ The size of practice is the number of different persons on whose behalf a claim was paid during the year.

~ A patient contact represents each time a practitioner saw a patient professionally regardless of the number of services provided at the time. The limit is one contact per patient, same doctor, same date of service. X-ray, ultrasound and laboratory services, and any professional interpretations of procedures are not considered to be patient contacts.
